Read Carefully

CASH WITH ORDER, or if not with order, should be sent before shipment. This has always been our rule, and will be found more satisfactory, both to us and our customers. Our prices are so low that you can afford to pay cash.

Your name, Post Office, County and Province, should be distinctly written, and be sure that neither is omitted.

YOU RUN NO RISK in sending remittance by P. O. Order, Registered Letter or Express Money Order. Personal cheques, please add 15 cents extra for exchange.

ASK FOR OUR RESPONSIBILITY, we refer you to Commercial Report, Banks or Agents of the different Express or Telegraph Offices in this city.

GUARANTEE—We warrant our stock true to label with the express understanding that should any not prove so, we will replace it with other stock; but will not be liable for any damage beyond this.

HOW TO SEND MONEY—Money can be sent safely either by express or post office order, bank draft or registered letter. Always send by one of the above methods at our risk.

WHEN YOU ORDER, do not forget to sign your name. Write it plainly and give your full address, including town, county and province, in all correspondence.

BY EXPRESS OR FREIGHT, means that we will deliver the stock to express or railroad here, and the purchaser pays all the transportation charges upon receipt of goods.

Packing done in best manner, and no charges for packing or cartage to R. R. station or Express Office, when ordered at Catalogue prices, when our responsibility ceases. Boxes at cost.

PLANTING YOUNG TREES—The nursery is the place to start young trees to grow until fit to be set out into the lawn or orchard. Too many are anxious to secure trees of large and bearing size, an error which cannot be too strongly corrected. The nursery is no place to grow bearing trees. We cannot too strongly recommend to our customers the wisdom of procuring young trees. They can be taken up more perfectly, can be more readily trained into proper shape, are more liable to live, and will be more likely to produce satisfactory and paying crops of fruit. In four years from planting, with good care, the two or three-year-old trees will produce more fruit than the large or bearing size, planted out at the same time. Future success depends more upon the care given the tree than its size. Again we would say, plant young, thrifty trees.

The Everblooming
BUTTERFLY BUSH

ROCHESTER
LITHO. CO.
ROCHESTER, N. Y.

No. 1129

The above subject has been reproduced from photograph, is true to nature,
and our description is not exaggerated in the least.

The Everblooming Butterfly Bush

(*Buddelya Variabilis Magnifica*)

It was a matter of some thought before this highly desirable plant was finally christened with the common English name by which it goes. Several years ago there was imported from Europe some plant novelties and this one was among them. We observed it carefully for a season and were charmed with its beauty, ease of culture and free flowering habit. The name BUTTERFLY BUSH was applied to it because it seems to attract butterflies in large numbers. Particularly we notice that it is not alone the common little yellow species of butterfly, but also the large and gorgeously colored butterflies that swarm about it as though vieing with it in brilliancy of color. This shrub from a young plant set out either in the Spring or Fall, will mature to full size the first Summer, producing a handsome bush, which the first year often maintains a height of four feet. It produces long, graceful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of minature size and borne by the hundreds on a flower head which is frequently 10 inches long. A single plant the first season will throw out as many as 50 flower spikes, which increase greatly in number during succeeding years. The year after planting, it generally commences to flower in June and continuing each season until severe frosts nip it. The foliage and blooms are exceedingly fine. The shrub is rather semi-herbaceous, by which we mean in some latitudes it will die down to the ground and while perfectly hardy, we recommend covering the roots with manure, leaves or other suitable material as winter approaches, as this will produce a heavy growth the following season. This shrub is very desirable as an individual specimen in the lawn and garden, or placed promiscuously in the shrubbery border.

SPECIAL MERITS

1. Very hardy.
2. Blooms the first season.
3. Flowers from early Summer till frost.
4. Rich, striking color.
5. Splendid for cutting. Very free flowering.
6. Will thrive anywhere.

One delighted admirer in commenting on the BUTTERFLY BUSH, wrote:

"The Butterfly Bushes are wonders. I wish you could see them. Five feet high, and full of handsome flowers. All who see them praise their beauty and free flowering qualities, and I would suggest that the following slogan be applied to it:

Just let its odor once delight your nose
And you will say, "A rival of the rose."

We make the following very special prices for strong, young plants, with good roots that will take hold quickly, grow fast and bloom the first season:

Spring Plants, Bloomed Beautifully until November, this Fall at the Central

Raspberries

COLUMBIAN

THE GREAT PIE AND CANNING RASPBERRY

They are by far the finest berry grown for home-use. Delicious for canning and for pies. Columbian is the best of the purple raspberries. Not only are purple raspberries extra good for table berries, but they are a very profitable commercial variety. Columbian plants are very hardy and propagate from tips. Fruit very large, often an inch in diameter, dark reddish purple; adheres firmly to stem; seeds small and deeply imbedded in a rich, juicy pulp with a distinct flavor of its own.

Every year the demand for purple raspberries has exceeded the supply and the late orders have to be turned back unfilled. We advise ordering early. No fruit farm or garden is complete without purple raspberries.

Prices for Columbian, 10 for \$1.00; 25 for \$2.00; \$6.00 per 100.

HERBERT RED RASPBERRY

Originated in Canada. It stands severe winters, even 40 degrees below zero, absolutely uninjured, and has never failed to produce a heavy crop of the most delicious fruit. It is a recognized fact that the farther north any fruit is grown, the better is its quality, and this "Child of the North Land" is no exception to the rule. The fruit is as large as the largest. It is as rich and highly flavored as the best, and far exceeds any other kind in hardiness, rugged, thrifty constitution of plant, and is very productive. Price, 10 for \$1.00; 25 for \$2.00; \$6.00 per 100.

**ST. REGIS EVERBEARING**

Berries from June until October.

It is the earliest of all red raspberries. It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until berries begin to ripen on the young, current year's canes, which continue to produce berries in increasing numbers until late autumn, in fact, until severe frosts occur in November.

The berries are of a bright crimson of large size, and of surpassing quality, rich, sugary, with full raspberry flavor. It succeeds upon all soils, and the canes are absolutely hardy. As a shipper, it is unexcelled.

Prices—10 for \$1.00; 25 for \$2.00; \$6.00 per 100.

Cuthbert.—One of the best known red. Price 50 cents for 10; \$3.00 per 100; \$25.00 per 1000.

Cumberland.—Black. Perhaps the most popular of the Blackcaps at the present time. It is very hardy and productive, ripening about mid-season. Price same as above. 10 for \$1.00; 25 for \$2.00; \$6.00 per 100.

Plum Farmer.—Black, thick meated, firm, large, good flavor, fine quality and handsome. Season very early and maturing its entire crop in a very short time. Cane very hardy, productive and free from disease. 10 for \$1.00; 25 for \$2.00; \$6.00 per 100.

Blackberries

15c each; \$1.00 per 10; \$6.00 per 100.

Wilson's Improved.—Eldorado, Snyder, Erie, Leucetia and Premo Dewberry.

Gooseberries

Josselyn.—Probably best of the large fruited American sorts; strong, vigorous, hardy, wonderful cropper, almost free from mildew. Price 30 cents each.

Downing.—Almost twice the size of Hugh-ton; pale green; vigorous and productive. Price 30 cents each.

Pearl.—Large green, prolific. Price 30 cents.

Currants

Boskop Giant.—New black. Latest European introduction. The finest black currants yet introduced. It is of extraordinary vigorous growth with large bunches of enormous fruit. Rich and sweet, very hardy. Awarded many prizes. Price 35 cents each; 3 for \$1.00.

Black Victoria, Champion, Fay's Prolific, White Grape, Cherry Red, 25 cents each; \$2.25 for 10.

Grape Vines**VERGENNIS GRAPE**

GRAPE VINES, 25c each. \$2.25 per 10.

Irish Cobbler and Dacotah Reds.—Good yielders and best quality. \$1.50 per bushel.

Apple Trees

DELICIOUS

Delicious—A remarkable variety introduced in the West several years ago where it is being largely planted and rapidly taking first rank both for commercial and home orchards. No new variety has ever so quickly gained popularity in so many different apple sections of our country. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy with a delightful aroma; of very highest quality. A splendid keeper and shipper. Tree one of the hardiest, a vigorous grower, with good foliage. A regular annual bearer. Should be in every orchard. Do not fail to include Delicious and Winter Banana Apple trees, \$1.00 each. \$8.00 per 10.

Winter Banana Apple—Fine, vigorous grower, large, healthy foliage, early bearer, smooth and handsome, golden yellow, highest quality. One of the best dessert apples. Early Winter. Price, \$1.00.

Price of two and three year old apple; not otherwise priced:

	Each	10	100
5 to 6 feet.....	\$.65	\$6.00	\$50.00

Early Harvest—Medium size, yellow, tender, rich.

Yellow Transparent—The hardiest early apple; good quality.

Red Astrachan—Large, red flesh white, sub-acid, August.

Duchess of Olden—Striped, tender, juicy, highly flavored. Best Summer. August.

Gravenstein—Large, striped, finest autumn apple. September and October.

Fall Pippin—Large greenish yellow, pleasantly acid.

St. Lawrence—Striped red. Valuable Fall.

Blenheim Orange—New and valuable. One of the best fall.

Alexander—Very large, round, crimson striped. October and November.

King of Tompkins—Very large, red and crimson; best November.

Snow (Fameuse)—Medium, size, white flesh, red striped.

Wealthy—The hardiest and the most beautiful; fine grained and good.

Stark—Large, striped light and dark red. October to January.

Golden Russet—Medium, roundish, highly flavored. November to April.

McIntosh Red—Medium, dark red juicy, mild. November to February.

Talman Sweet—Medium, yellow and rich. December to April.

Wagener—Good size, deep red in the sun, excellent dessert. December to May.

Pewaukee—Bright yellow, splashed with red.

R. I. Greening—Large, a well known, fine apple. December to February.

Ontario—Bears very young, one of the best winter apples.

Northern Spy—Large, striped, tender rich, delicious. December to April.

Baldwin—Very large, well known as the popular winter apple.

Ben Davis—Large, handsome, stripped, iron clad. Winter.

Wolf River—Very large; hardy winter.

Hyslop Crab—Deep crimson, fine size, and very good.

Transcendent Crab—Handsome, striped and yellow; one of the best.

Martha Crab—A new crab from seed of the Duchess of Oldenburg.

Whitney Crab—Select, one of largest.

Peaches

Price 40 each; \$30.00 per 100.

Greensboro—The very hardiest peach we know; especially recommended for the extreme northland. Peach large size, splashed with red; juicy, sweet and tender.

Yellow Swan—A local variety, highly thought of resembling the Yellow St. John and ripening a week earlier.

Yellow St. John—A yellow peach of fine quality. Early, one of the best.

Crawford Early—Large yellow flesh, fine.

Crawford Late—Rich and juicy, very fine. Late September.

J. H. Hales (Freestone)—This notable new variety is very large, deep golden yellow, thick smooth skin, fine grained yellow flesh, delicious flavor, of Crawford type and ripens about a week before Elberta.

New Prolific—Large yellow freestone, ripens about September 1st and a good one.

Elberta—New; largely planted; a great peach; yellow flesh; freestone and O. K.

Fitzgerald—New, yellow flesh, excellent, one of the best; very hardy.

Apricots

Garden City and Harris Hardy, each..\$1.00

Quinces

Orange or Reas, each\$1.00

Standard Pears

BARTLETT PEAR

Summer. A golden-colored pear, with a red cheek on most specimens. Bartlett is extra good for canning. When picked a week before it is ripe, and properly stored, will keep till late. Flavor delicious and musky flesh buttery, rich and juicy. One of the finest pears that grows to eat raw. A mingling of the flavor of Bartlett pear and quince, gives about the finest taste of any food this world's folks have. Bartlett trees bear early, produce enormous crops, and are not nearly so subject to damage by insects and disease as some other sorts. The trees do especially well with high culture.

	Each	10	100
4 to 6 feet, select	\$1.00	\$10.00	\$95.00

Beurre D'Anjou—Large handsome, keep into mid winter.

Beurre Bosc—Fruit is large, yellow russet; best quality.

Beurre Clargeau—Handsome and good, one of the best.

Clapp's Favorite—Large as Bartlett and early; very fine.

Duchess D'Angoulême—Very large and handsome.

Flemish Beauty—Large, handsome and excellent.

Howell—Large, handsome, yellow and good. October.

Lawrence—Medium size, a fine winter pear. December.

Seckle—One of the most delicious pears. October.

Sheldon—Russet, highly flavored and delicious. Late.

Keiffer—Yellow, large, handsome, heavy bearer. Late. mond.

Plum Trees

Select \$1.00 each; \$10.00 per 10; \$95, per 100.

Shiro—(Japan)—A strong grower. Fruit is produced in profusion, medium to large, clear light yellow, transparent, firm, juicy, rich, very early.

Red June—A red plum ripening before Abundance.

Abundance—Hardy and productive. Fruit large, reddish yellow.

Burbank—The best and most profitable among growers for the market.

Moor's Arctic—Valuable for its productiveness and hardness. Early blue.

Felleberg—Italian Prune—Good size, purple, delicious, juicy fine for drying. September.

Monarch—Tree an upright, strong grower and abundant bearer, very good; late blue.

Niagara—Very large, reddish purple, rich and one of the best.

Bradshaw—Large, dark red, flesh green, juicy, excellent.

Reine Claud de Bevey—Large, greenish plum. Excellent for canning. Late September.

German Prune—Large, dark purple, good keeper. Very fine. Late September.

S. Damson—Purple, fine, handsome and good keeper.

Lombard—Medium, violet red, juicy, pleasant, hardy, productive.

Yellow Egg—Very large, egg shaped (one of the best).

Imperial Gage—Fruit medium to large, oval, green. Among best for canning.

Cherries

\$1.00 each; \$10.00 per 10; \$90 per 100.

Lambert—Sweet, the largest of all cherries. It is purple-red; firm and rich. Every year sees an enormous crop and the tree not only grows well, but is a proof against insect and fungus attacks. The finest of shippers. \$1.25 each.

Bing—Sweet, one of the most delicious cherries grown. Tree very hardy and vigorous with heavy foliage. Fruit is large, dark brown or black and very fine quality. Bing is a good shipper and should be planted with Lambert for commercial purposes. Very fine. \$1.25 each.

Black Tartarian—Sweet, very large, purplish black; half tender; flavor mild and pleasant. Beautiful grower, and an immense bearer.

Gov. Wood—Sweet, clear, light red, tender and delicious.

Napoleon Biggareau—Sweet; fruit of largest size; pale yellow with a bright red cheek.

Windsor—Sweet, fruit large, late, liver colored, fine quality. Tree hardy. Money maker.

Yellow Spanish—Sweet, large, yellow, very fine. June.

Schmidt's Biggareau—Large size, of a deep mahogany color. Flesh dark, tender, very juicy, with a fine rich flavor; good shipper.

Early Richmond—Sour; rich acid flavor. Productive.

Large Montmorency—Sour, large, red, productive, ten days later than Early Rich-

Poplar—Carolina

CAROLINA POPLAR

Shade Trees

The Cut-Leaved Weeping Birch—This noble tree is not only the most popular of the weeping trees, but is decidedly the best. It's tall, slender, yet vigorous growth, graceful drooping branches, silvery white bark, and delicately cut foliage, presents a combination of attractive characteristics, rarely met with a single tree. It thrives in any soil and is very hardy, needing no protection. As single specimens on the lawn or employed as avenue trees, they are very imposing and handsome. If one ornamental tree only plant the Cut-Leaved Weeping Birch. Price 6 to 7 feet, \$1.50:

American White Birch—A tree with a smooth white bark and handsome foliage. Very effective when planted in front of evergreens to afford strong contrast. 8 ft., 75c; 10 ft., \$1.00.

Russian Mulberry—Desirable, for ornament and shade. A favorite on account of its beautiful cut foliage and fruit. Price, 4 to 5 foot tree, 60 cents each.

Japan Maple—There is not a dwarf tree in cultivation which can compare with the Japan Maple for grace and beauty. Grows best in partially shaded situations and in rich, well-drained soil; rarely over 8 feet. 2 feet, \$2.50 each.

Norway Maple—This is one of the hardiest ornamental shade trees, and of the most beautiful. Very popular for shade and ornament. This maple with its broad, showy leaves has many admirers. 6 ft., 75c; 8 ft., \$1.00.

Schwedler's Norway Maple—The early foliage of this variety is a bright crimson, fading to purplish green. \$2.00 each.

Silver Maple—8 ft., 75c; 10 ft., \$1.00.

Manitoba Maple—7 ft., 75c.

Horse Chestnut—6 ft., 75c.

Carolina Poplar—8 ft., 75c; 10 ft., \$1.00.

American Elm—8 ft., 75c; 10 ft., \$1.00.

Catalpa Spec.—8 ft., 75c.

Mountain Ash—8 ft., 75c.

Paul's Sa Dbl Thorn—75c.

Purple Beech—Leaf copper color, \$1.00 each.

Staghorn Sumach—A large shrub or tree, brilliant foliage and scarlet fruit in autumn. 75 cents.

CHERRY—*Cerasus* (Double flowering)—A tree of medium growth, producing clusters of double white flowers in May. Blooms so profusely as to completely hide the branches from view. Very desirable, \$1.00 each.

Beech Purple-leaved—(*Purpurea*)—An elegant, vigorous tree, growing 30 feet high. Foliage deep purple, changing to crimson. Like all varieties of the Beech, this is difficult to transplant, hence small trees three feet high are preferable. \$1.00 each.

Soulange's Magnolia—Stubby and branching while young. Flowers white and purple. Cup-shaped, 3 to 5 inches in diameter. Foliage large and waxy. One of the finest of the Chinese varieties. Price \$2.00 each.

Conspicua Chinese White Magnolia—A Chinese species of exquisite beauty. Medium size, shrub-like. Flowers are large and numerous and pure white and come before the leaves.

A large one on our grounds is universally admired every spring, often before the snow is all gone, it is a perfect mass of bloom. Strong shrubs. Price \$2.00 each.

PURPLE FRINGE OR SMOKE TREE.

A shrub much admired for its curious fringe or hair-like flowers that cover the whole surface of the plant in midsummer, giving the shrub the appearance of being covered with a cloud of smoke.

European Larch—A beautiful, rapid-growing tree, of irregular, pyramidal form, with small drooping branches; valuable for timber.

*Nut Trees***Japanese Walnuts.**

Siebold's Japan—Of the finer imported walnuts this is the species best adapted by its hardy, vigorous habits for general culture in our country. It grows with great vigor, assuming a handsome shape without pruning, and has withstood a temperature of 21 degrees below zero without injury. Its nuts are considerably larger than the common hickory nut and borne in clusters of fifteen to twenty. The shell is a little thicker than that of the English walnut, which it resembles in a general way; the kernels are meaty, delicate, and can be removed entire. The trees begin to bear when two or three years old. \$1.00 each; large, 6 to 8 feet, \$1.50 each.

Black Walnuts—Hardy, each 75 cents.

English or Maderia Nut—Handsome growing tree; large, thin-shelled, delicious nut. Price \$1.00 each.

**IT IS TO YOUR INTEREST
TO ORDER EARLY**

KOSTER'S BLUE SPRUCE

Retinospora or Japan Cypress

Cypress, Japan (or Retinospora).—The following are of moderate growth and some of them so dwarf in their nature as to never grow more than 2 or 3 feet tall. All are perfectly hardy, and for grouping, where a mass of low evergreen foliage is desired, they are not excelled. We have some very beautiful specimens.

Obtusa Gracilis.—A handsome form with rich dark green moss-like effect. 2 ft., \$2.00.

Obtusa Nana.—The gem of the lot; compact form and deep green foliage. This is the form the Japanese use in creating their famous dwarfs (chabo-hiba). Imported and nursery grown. All interesting and some of great age. 10 to 12 inch, \$1.50.

Obtusa Magnifica.—Of compact upright habit with dense foliage of exceedingly rich dark green. A superb variety.

Filifera.—Thin branched Japan Cypress. A low tree with irregular outline and very elegant appearance. Its long drooping foliage and pretty form are very pleasing. \$100 each.

Picifera Aurea.—One of the brightest and most lasting in color of all golden-leaved Retinosporas and perhaps the hardiest. It is a lively yellow at all times. 2 ft. \$1.00 each.

Plumosa.—A beautiful, strong growing evergreen tree, with abundant soft, deep green foliage. A rapid grower. 2 ft. \$1.50 each.

Plumosa Aurea.—Very popular. Of dense habit with soft feathery light green foliage, distinctly tipped with yellow. 2 ft., \$1.75.

Japanese Yew (Taxus Cuspidata).—One of the hardiest, of spreading habit, foliage light green. 2 feet. Each \$1.00.

Koster's Blue Spruce

This is by far the most beautiful variety of the spruce and is much more beautiful in color than the variety commonly known as Colorado Blue Spruce. The foliage is of intense Silvery blue, and combined with its fine compact habit of growth makes it very desirable for home planting. No other evergreens are so effective for mass plantings in city parks, private grounds and cemeteries. Very hardy.

12 to 18 inches	\$ 1.50
18 to 24 inches	2.00
30 to 36 inches	4.00
40 to 48 inches	5.00

Norway Spruce (P. Excelsia).—Of lofty habit. The most largely planted and most popular of all evergreen trees. Often used for hedge planting, for screens and for wind breaks.

	Each	10
12 to 16 inch.....	30c	\$2.50
16 to 20 inch.....	35c	3.25
20 to 24 inch.....	40c	3.75
24 to 30 inch.....	50c	4.50
30 to 36 inch.....	65c	6.00

We also have a few varieties of Dwarf Spruce from 8 to 12 inches. Fine specimens suitable for borders and special places.

Balsam or American Silver Fir.—A very regular, symmetrical tree, assuming the conical form, leaves dark green above, silver beneath. 3 ft., 75 cents and special places. 50c to \$1.00 each.

Pyramidal (Arbor Vitea).—An exceedingly beautiful bright variety, representing the Irish Juniper in form foliage deep green; color well retained in winter. Perfectly hardy. Should have a place in every collection. 2 ft., 75 cents.

Geo. Peabody (Arbor Vitea).—One of the best golden forms. Very striking and beautiful. 2 ft., \$1.00.

Warreana (Siberian Arbor Vitea).—Compact and dense of foliage. Color a rich green throughout the year. One of the best. 2 ft., \$1.00.

Rosenthalii (Arbor Vitea).—Very hardy and compact specimens and a fine color. 2 ft., \$1.00.

Globosa (Arborvitea).—Dwarfish globe-like heads, seldom more than 3 ft. in height. 18 inch, \$1.00.

American (Arborvitea).—Also known as white Cedar. One of the most useful of evergreens. Thrives on a great variety of soils and easily transplanted. We have some fine specimens, or can supply by hundred. Price from 50c to \$2.00.

Irish Juniper.—A distinct and beautiful variety, erect and dense. Resembles a pillar of green. Very fine. 2 ft., \$1.00.

Virginiana Glauca—Blue.—The most beautiful of all the Junipers and one of the best of all the evergreen trees. Of pyramidal habit, and densely clothed with bright metallic blue foliage. As hardy as an oak. 11-2 ft., \$1.00 each; 2 ft., \$1.50.

Juniperus Chinese Aurea.—Golden Chinese Juniper. A charming form with rich golden foliage. 2 to 2½ ft., \$2.00.

Ornamental Shrubs

All shrubs 50c each, unless otherwise noted.

DEUTZIA

Deutzias—Valuable, self-sustaining shrubs which vary considerably in height and habit, but bloom alike in dainty bell or tassel-shaped flowers borne thickly in wreaths along their branches, in June.

Pride of Rochester—Large double white flowers, the most popular of all.

Lemoinei—Habit Dwarf, very free flowering, double white flowers.

Deutzia Gracilea—Dwarf habit. Covers itself with pure white, bell-shaped flowers that resemble the bloom of Lily of Valley; fragrant.

Spiraea Van Houttei—This is a well known Spiraea. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. It is of a drooping habit, reaching a height of 6 to 8 feet when matured, producing a profusion of white flowers in June. 50c each.

Spiraea Billardi—A great favorite and free bloomer. Produces beautiful red colored flowers nearly all summer long. Suitable for moist or dry locations. Should be in every collection of shrubbery. In a selection of three or four shrubs we would not think of omitting the Spiraea.

Spiraea—Anthony Waterer—This beautiful gem makes a low compact bush, and is covered nearly the whole growing season with large umbels of deep crimson flowers, which measure nearly six inches across, is seldom out of flowers. Perfectly hardy.

Spiraea Arguta (Bridal Wreath or Snow Garland)—A slender shrub, well branched a snowy mass of clear white flowers in early May.

Spiraea Opulifolia Aurea. (Golden Spirea)—Of similar habit to above, with young foliage of bright yellow, changing to golden bronze in fall. 50 cents each.

WEIGELIAS

Rosea—A beautiful shrub that blooms in June and July, with rose-colored flowers produced in so great profusion as almost entirely to hide the foliage. They are very desirable for the border or for grouping, and as specimen plants for the lawn. Price of fine plants, 50c.

Eva Rathke—Very fine free flowering variety; color rich ruby-carmine; quite distinct; extra.

Candida—A vigorous, erect grower. Flowers pure white, borne all through the summer months. One of the most free blooming of all Weigelias.

Rosea Nana Variegata—One of the most conspicuous shrubs that we cultivate. Leaves beautifully margined, creamy-white, flowers pink. It is a dwarf grower, and admirably adapted to small lawn or gardens.

Halesia (Snow Drop Tree)—Silver Bell. A beautiful large shrub with handsome white bell-shaped flowers in May. Very desirable.

Forsythia (Golden Bells)—The flowers are drooping, yellow, and appear very early in the spring before the leaves.

Syringa (Mock Orange)—Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower. This is one of the most attractive shrubs. Like the Spiraeas, Deutzias and other well known shrubs it needs no petting. It will grow anywhere.

Golden-leaved Elder—One of the most striking and highly colored of the golden-leaved shrubs.

Red Snowberry (Vulgaris)—A very graceful, small shrub, small flowers followed by persistent deep-red berries along the underside of branches. Very attractive.

Snowberry (Symphoricarpos racemosus)—Small flowers, but bearing beautiful clusters of waxy white berries in late summer.

Red-branched Dogwood—Very ornamental and conspicuous in winter while the bark is blood red.

Golden-barked Dogwood, Stolonifera Aurea—Similar to the last named except the bark is bright yellow.

Ribes—Flowering Currant—Good hardy plants prized for their wealth of fragrant, small, bright flowers in early Spring.

Almond—Early spring flowering shrubs, in full bloom before the leaves appear. 50 cents.

Burning Bush (Japan Quince)—Very early in spring this fine old shrub is completely covered with dazzling scarlet flowers, followed by small, quince-shaped fruits which are quite fragrant. Growth bushy and dense, with protecting thorns.

Kerria Japonica (Japan Corchorus)—A slender green-branched shrub, with globular, yellow flowers from July to October.

Tamarix—This is a hardy shrub, with small leaves, similar to the Juniper; the flower is small and delicate and borne in spikes; does well by the seaside, where other plants cannot live.

SNOWBALL HYDRANGEA

Hydrangea Arborescens Sterilis—A grand addition to the summer flowering hardy shrubs; dwarfing the show of other sorts in July and August by the magnitude and profusion of its flower-heads. The flowers are, in a large way, similar to the familiar "Snowball" in appearance, and are conspicuously white and imposing, whether as single specimens, as cut flowers, or in groupings. (See cut). 50 cents each.

HYDRANGEA GRANDIFLORA

This familiar old shrub is one of the most prominent factors during August and September, in brightening up the lawn and shrubbery groups. Single specimens, if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, stocky clumps of compact form, and are wonderfully attractive when laden with their massive white plumes. Large beds, kept at a uniform development are extremely showy; first snowy white then pink, then reddish bronze and green. 18 to 24 inch, 50 cents each; \$4.50 for 10; 2 to 3 feet, 70 cents each; \$6.00 per 10.

TREE HYDRANGEA PANICULATA

Three to four feet, 75 cents each, fine and showy.

ALTHEA OR ROSE OR SHARON

Also known as the Hollyhock shrub, belongs to the mallow family. These are the most beautiful shrubs we have in our collection. The flowers are of large size, very double, and full of various brilliant and striking colors. They bloom freely during August and September, when scarcely any other shrub is in bloom. Double white, double red, double pink, double violet. 2 to 3 feet, 75 cents each.

Tartarian (Bush Honeysuckle). The upright Honeysuckles have bright and pretty fragrant flowers followed by showy berries that last through the fall. Make very desirable and attractive hedges. 50 cents.

SNOWBALL, OR ARROW ROOT—*Viburnum*.

Common, or Guelder Rose (*Sterilis*)—The well known sort and a general favorite on account of its large clusters of white flowers in June. Very handsome and desirable and should be in every collection. 50c each.

Japan—(*Viburnum Plicatum*).—A rare and exceedingly beautiful species from Japan, surpassing the Common Snowball in many respects, as its habit is much better, foliage much handsomer, flowers whiter and more delicate. Very valuable. 60c each.

Berberis Thunbergi (Japan Barberry)—There is no shrub in existence so generally planted or more practical for all purposes where beautiful foliage effect is desired than this. It is dwarf growing, uniformly bushy and rounded in form, susceptible to formal pruning, with small, numerous leaves densely covering the thorny twigs. These give it paramount importance for use as a filler, and edging for shrubbery groups; as a foundation screen in front of porches; and, above all, as a compact, impassable, hardy, low hedge for confining lawns or dividing properties. As dainty in character as Maiden Hair fern, the foliage throughout spring and summer graduates from brightest to richest green; while autumn makes them blaze with crimson-scarlet and gold. Following the close-set, small flowers of creamy white, are oval fruits which gleam redly along every branch in late fall and far into the winter. 18 inch, 50 cents each; \$4.00 per 10; \$30.00 per 100.

RHODODENDRON—Rosebay.

This, wherever grown, is universally acknowledged to be the most showy, magnificent hardy evergreen shrub that grows. It should be planted in well prepared soil of leaf mould, or leaf mould and muck and peat mixed, and in partial shade. The broad thick evergreen foliage, with its glossy richness, would alone entitle it to a place foremost in the rank of evergreen shrubs, but when in June this luxuriant mass of evergreen foliage is almost hidden by the magnificent array of beautiful flowers in clusters and each cluster large enough for a lady's bouquet, it gives it a pre-eminence that our pen would fail to portray. Planted singly, in the flower garden or upon the lawn, they are objects of interest. Strong plants \$2.00 each.

Lilacs

Price shrubs 60c each. Tree form 75c each.

Best beloved of all the old time garden shrubs; whose flowers never fail to charm. New varieties are occasionally produced, with deeper coloring and larger form. Our list offers some of the very best.

Alphonse LeValle.—Blue shaded violet.

Belle de Nancy.—Brilliant rose, white centered.

Chas. Joly.—Rather low in growth; flowers double, very dark reddish purple.

Chas. X.—Single, reddish purple.

Mad. Lemoine.—Double pure white.

Marie LeGrays.—Single; pure white.

Michael Buchner.—Dwarf; pale lilac.

Pres. Carnot.—(D) Pale blue, marked with white at centre.

Pres. Grevy.—(D) Huge panicles; beautiful shade of light blue.

Souvenir de Ludwig Spaeth.—A choice variety with long panicles of single flowers; dark, purplish blue.

Butterfly Bush.—Summer Lilac. This name was given it because it seems to attract butterflies in large numbers. This shrub, planted either in the spring or fall, will mature to full size the first summer, making a handsome bush of about four feet. It produces long graceful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long. A single plant will throw out as many as fifty flower spikes the first season, which increase greatly in number during succeeding years. It blossoms from early summer till frost. Price 50c, 3 for \$1.25.

YUCCA FILAMENTOSA.

Yucca Philamentosa (Adam's Needle)

Stems rising from four to five feet and forming at the top, a pyramid of branching panicles of large drooping creamy white flowers, exceeding hardy everywhere. It lasts forever, and is always neat in appearance. Price, large flowering plants, 50 cents each.

Ovalifolium (California Privet).—This makes when pruned a very formal hedge, will grow almost anywhere, thriving where other plants refuse to grow. Two years; 18 to 24 inches, branched, \$1.50 per 10; \$12.00 per 100.

Amurnse (Armour River Privet).—This is a graceful plant, requires little trimming. The leaf is small and rounded, plant branches, has not the stiff or formal effect that the California Privet has. Two years, 25c each; \$2.00 per 10; \$15.00 per 100.

Roses

A Few Extra Specials

Columbia.—This grand new rose is a beautiful bright pink color, slightly mottled, with a bud of fine form and when open one of the longest lived bloom in the garden. Is altogether a top-notch and one you cannot afford to miss. Price \$1.00 each.

Frank W. Dunlop.—A cross between Mrs. Chas. Russell and Mrs. Geo. Shawyer. Is the largest and most perfect bright rose-pink variety, and combines the good points of the parents to a marked degree. Price \$1.00 each.

George G. Dickson (H. T.) 1912.—Velvety black scarlet crimson. Price \$1.00.

General MacArthur.—Dazzling, crimson scarlet, exquisitely perfumed. One of the grandest red roses ever offered. Price \$1.00.

Juliet (B).—Old-gold on the outside of the petals, rich rosy red on the inside of the flower, changing to deep rose as the flower expands. Price \$1.00 each.

Mme. Edouard Herriot (Daily Mail Rose).—Coral red, shaded with yellow and bright rosy scarlet passing to shrimp red. \$1.00.

Gorgeous (H. T.)—New, strong grower, large, orange with coppery shades; fine for forcing and cut flowers. Price \$1.00.

Willowmere.—Coral-red, suffused with carmine when in bud, opening to a large beautiful flower of a rich, shrimp-pink, shaded yellow in the centre. \$1.00.

Jonkheer J. L. Mock.—Deep pink, outside petals silvery rose; beautiful long buds. \$1.00.

Hardy Roses

Strong 2-year-old field grown plants, 60c each, unless otherwise noted.

Richmond—Bright, glowing crimson-scarlet; very beautiful.

Hugh Dickson—Magnificent crimson, shaded with scarlet. Flowers very large, of perfect shape and fully double. 75c.

Gruss an Tepitz—Intense depth and richness of color; velvety crimson-red. One of the best dark Garden Roses. In bloom until November. 75c.

Marshall P. Wilder—A great many persons will not give up to the contention that this is the ne plus ultra in red Roses. It certainly is a hummer and hard to beat. Deep, rich, glowing red.

Gen. Jacqueminot—Holds first place among the dark red roses.

Anne de Diesbach—Carmine, a beautiful shade; very large. A superior garden sort; fragrant; one of the hardiest. Valuable for forcing.

Prince Camille de Rohan—Deep maroon of velvet-like texture.

Orleans Rose—(New) Flowers are strikingly handsome; a warm Geranium red with centre of pure white.

J. H. Clark—Unique in color, the flowers being deep scarlet, shaded very deep crimson, and are large and beautiful in form.

Persian Yellow—Deep yellow, double, hardy.

John Hopper—H. P., bright pink.

Paul Neyron—One of the finest hardy roses ever grown. It blooms unceasingly from June to November, on uniformly long, stiff, thornless stems.

Mrs. John Laing—A splendid Rose, perfectly hardy, with immense flowers; full and double; borne in great profusion. Color clear pink.

Ulrich Brunner—Cherry crimson, large size, fine form.

My Maryland (H.T.)—A grand pink rose, free flowering.

Red Letter Day (H.T.) 1914—Brilliant glowing crimson which does not burn or turn blue.

Ophelia—One of the finest recent introductions for cut-flower use; salmon-flesh shaded with rose. 75c.

Radiance—A beautiful blending of carmine rose with opal and copper shades. 75c.

Mrs. Aaron Ward—Deep golden orange, shading outward to creamy yellow. 75c.

Coronation—Color shading from flesh to bright, shrimp pink, handsome foliage, the largest rose grown. 75c.

Lady Hillingdon—A deep shade of yellow which does not easily fade. Long pointed buds.

White Killarney—White as snow.

Killarney—Pink, a favorite bedding rose.

Sunburst—Rich cadmium yellow, with orange-yellow centre, vigorous, a superb rose. 75c.

Prince of Bulgaria—Very full cup-shaped flowers; an exquisite shade of rosy flesh color, shaded with apricot and yellow. 75c.

Dean Hole (H.T.)—Silvery carmine with shades of salmon. 75c.

Madame Plantier—Pure white, free bloomer, ever beautiful, seldom out of bloom.

Mme. Caroline Testout—Light salmon-pink, edged silvery rose, grand.

Frau Karl Druschki—(White American Beauty). This grand white rose has become renowned as the very highest type of its class, and the best snow-white rose ever introduced. It is an extraordinarily strong grower, and has the vigor and hardness of an oak. In bloom until November.

Mag. Dickson—White. One of the choicest.

Lyon Rose—Shrimp pink at ends of petals, centre coral red or salmon shade chrome yellow; large, full, perfectly formed. 75c.

Mad. Ravery—One of the best of the yellow bedders; with long, slender buds and nicely double flowers. 75c.

Soleil D'Or.—(Golden Sun).—New. Hardy yellow rose; foliage glossy. Moderate in growth and is sure to be popular.

Climbing Roses

NEW HARDY CLIMBER

Paul's Scarlet Climber—Winner of gold medal as best climbing rose, at National Rose Society's Exhibition. Flowers are brilliant scarlet, shaded crimson; large, semi-double. Corresponds with Cl. Am. Beauty, as to size, shape and habit. Blooms during a long period holding in flower after many of the June bloomers have dropped their petals. The heavy 2-year field grown plants we offer will demonstrate a wonderful rose for trellis or pergola use. \$1.00 each.

Climbing Roses here listed need not necessarily be trained as climbers. By keeping in bush form with judicious pruning you will find them more floriferous and satisfactory, than most "bush" roses. 60c each; \$6.00 dozen.

Crimson Rambler—Bright, crimson flowers, produced in large clusters of pyramidal form; grand variety for pillars and arches and to train over porches; also makes a fine attractive hedge. Awarded gold medal two years. A rose for the masses.

Philadelphia Rambler—An improvement on the Crimson Rambler, with larger trusses of flowers which are perfectly double and more deeply colored. The color does not fade out, and the foliage is handsome at all times. One of the finest Climbing Roses for covering pergolas and porches.

Flower of Fairfield—The ever-blooming Crimson Rambler. It carries the crimson splendor of the type from spring even into November; commencing to bloom on the first young, red shots, and adding size and brilliancy with its growth of wood. Perfectly hardy and an important acquisition.

Tausendschon—(Thousand Beauties). A rapid growing, almost thornless climber, showing the blood of Rambler, Polyantha and Tea parentage. Its innumerable flower clusters make a pretty show in June and July; at first, the soft pink of Clotilde Soupert, and later deepening to a bright carmine rose. Should be among first choice for a Rambler.

Hiawatha—Distinctly different from other Ramblers. Its small flowers, deep ruby crimson, accentuated by a white eye, are uniquely borne in long trails of 40 to 50 blooms. This variety is very popular for training on fences, not only as a covering for the fence, but because it is really one of the prettiest Roses of its kind.

White Dorothy—A beautiful white flowered cluster Rose, as free and expressive as its pink rival, the Dorothy Perkins. The vines are a sheet of white during their blooming season and are especially valuable because of the rarity of good white Climbing Roses.

Dorothy Perkins—Most beautiful deep pink, the flowers are borne in large clusters of small double blooms. Another Rose for the masses.

Excelsia—(Red Dorothy Perkins)—A radiant, blood-red cluster Rose, as free and double as Dorothy Perkins, of which it is the red prototype. The clusters are very large.

Climbing American Beauty—This new climbing form of the famous pink Rose so long the American favorite for cutting, is as lovely and fragrant and deeply pink as the bush form.

Lady Gay—New Rambler Rose (climbing). A seedling from the popular Crimson Rambler, which it strongly resembles in habit of growth and general effect, but with flowers of a delicate cherry pink, which fades to a soft-tinted white. A most attractive Rose.

Goldfinch—Yellow, strong growing Rambler and a beauty.

Crimson Baby Rambler—The original of the group; dwarf, bushy, profusely blooming; its compact clusters of bright crimson flowers continuous indoors and out. 85 cents each.

Betsy Van Nes (D.P. 113)—Sport from Mrs. Cutbush. Color bright pure red of great brilliancy very free and not subject to mildew, also fine for forcing. 85 cents.

Catherine Zeimet—Pure white, large clusters, freely produced. 85 cents.

Gentlemen—I received your shipment of the 9th inst. in good order. If we are able to make the trees keep pace with the quality when received we shall take pleasure in having Kelly shade about our summer home, and hope to gather fruit equal to the apparent quality of the trees. Thanking you for your promptness in filling the order, I am
Very truly yours,
W. A. Winn.

Gentlemen:—Trees arrived and much to my surprise were in fine condition. While I have purchased over two thousand trees, your trees are the finest I have ever had. They have the appearance of being very thrifty now.

Yours very truly,
H. R. Brown.

Hardy Climbing Vines

CLEMATIS PANICULATA.

Japanese Virgin's Bower—One of the most beautiful of our hardy flowering vines, the flowers are pure white, and are borne in large panicles or clusters of bloom, fairly covering the plant so that it is a mass or sheet of fleecy white. The fragrance is delicious, resembling the English Hawthorne blossoms. It is a strong rapid grower, quickly reaching a height of from fifteen to twenty feet, and spreading out when trained to wires or strings. It is perfectly hardy in all sections. Simply grand when in bloom. 60 cents; 2 for \$1.00.

Clematis—Nothing compares with these climbers. Flowers are the richest shades. Strong plants 75c each.

Jackmani—4 inches across, intense velvety purple, blooms from July until frost.

Henrii—Creamy white, handsome.

Mad. Andre—The crimson Jackmani, color crimson red.

AMPELOPSIS VEITCHI.

Boston Ivy—This is one of the finest climbers we know for covering walls, as it clings firmly to the smoothest surface, covering it with overlapping leaves, which form a perfect mass of foliage. The color is a fresh, deep green in summer, changing to the brightest shades of crimson and yellow in autumn. It is quite hardy and becomes more popular every year. Field-grown plants, first size, two years, 50 cents each, 3 years, 70 cents.

Ivy, Engelmann's. (A Engelmanni). Improved form of Virginia Creeper; clings to wood, stone or brick. 50 cents each; 3 for \$1.00.

Trumpet Creeper (Bignonia or Tecoma grandiflora).—Has compound leaves and beautiful, trumpet-shaped, scarlet flowers; a rapid grower, 50c each; 3 for \$1.00.

Wistaria, Purple (Wistaria Chinensis). A high-climbing vine with compound foliage and long pendent racemes of purple, pea-shaped flowers in spring. 50 cents each.

Aristolochia Sipho (Dutchman's Pipe)—A very rapid growing hardy climber. The flowers are long and shaped like an old Dutch pipe. An old-time favorite. Extra strong plants, 75 cents each.

HONEYSUCKLES

Hall's Japan—The most constant bloomer of the class, being literally covered all summer with beautiful yellow and white flowers, almost an evergreen; 50 cents.

Scarlet Trumpet Honeysuckle—A strong, rapid grower, and produces scarlet inodorous flowers. 50 cents each.

Lycium Chinense (Chinese Matrimony Vine)—A general utility hardy climbing vine that will overcome any obstacle to growth and flourish everywhere. 50 cents each; 3 for \$1.00.

PEONIES

The Peony is easily the Queen of Hardy Perennial plants. May be planted in the spring or fall. It rivals the rose in beauty and fragrance. All those we offer (have large, full and very beautiful flowers. Many of them are as fragrant as an American Beauty Rose. 50c each.

Mme. Lebon—Bright cherry pink.

Putarch—Large deep red.

Officinalis Alba Fl. Pl.—Old fashioned double white, but not pure white.

Officinalis Rosea Fl. Pl.—Old fashioned double pink. The earliest pink Peony.

Officinalis Rubra Fl. Pl.—Old fashioned double red; dazzling crimson.

Prince Imperial—Brilliant purplish scarlet; free bloomer, fine for massing in landscape work. 50 cents.

Couronne d'Or—Immense; very full imbricated, ball-shaped bloom; snowy-white with crimson blotches in centre; fragrant; very late. Extra fine. 50 cents.

Delachei—Deep crimson purple; one of the best dark peonies; mid-season. 50 cents.

La Tulipe—Delicate rose, fading to creamy-white; very large, full. 50 cents.

Duke of Wellington—Sulphur-white; large and well formed; strong grower; late. 50 cents.

PERENNIAL PHLOX.—Plant in a row along border of the roadway, in a bed made up of several rows, or in a round bed on the lawn or in shrubbery. It is hardy and succeeds everywhere and on all soils. Prices of strong plants. 25 cents each; 5 for \$1.00.

Von Lassburg—Clear white.

B. Comte—Purple.

Rosenburg—Bright purplish pink.

La Vague—Clear lilac pink, red centre.

Von Hantz—Light red, dark eye.

GERMAN IRIS OR FLEUR-DE-LIS

The improved variety of German Iris, or "Flags", rival choice Orchids in exquisite color and beauty. 20 cents each; 6 for \$1.00.

Dianthus Barbatus—(Sweet William). Great richness and variety of coloring; beautifully marked. Double flowers, in crimson, white and pink. Per clump 25 cents.

Funkia (Day Lily)—One of the easiest plants to manage, doing well either in shady or very sunny places. Foliage variegated green and white, purple lily-like flowers. 25c each.

Dielytra (Bleeding Heart)—Rosy, heart-shaped flowers hanging in great profusion from a graceful curved stem. May and June. 25c each.

EULALIA Japonica—The beautiful hardy grasses are deserving of the highest commendation. For the garden they are invaluable, being very showy and ornamental and of easy cultivation. They should be in every collection. 35 cents, 3 for \$1.00.

Five Choice Roses

- 1 Ulrich Brunner
- 2 Killarney
- 3 Mad. Caroline Testout
- 4 Frau Karl Druschki
- 5 Gruss an Teplitz

AN ALL SUMMER BLOOMING ROSE GROUP

IN FLOWER FROM JUNE UNTIL FALL

These hardy Hybrid Tea Roses combine the hardiness of the hardy Perpetual Roses with the free flowering qualities, beauty of form and fragrance of the Tea Roses, but require little protection. They bloom more or less freely and continuously from June until fall.

The following are the hardiest and choicest of this class:

1. **ULRICH BRUNNER.** Most charming and best of dark red roses of immense size and globular form.
2. **KILLARNEY**, or Irish Beauty. Brilliant sparkling pink with large pointed buds and enormous semi-full flowers of great beauty.
3. **MAD. CAROLINE TESTOUT**, or Giant La France. Large satiny-rose pink flowers, deepening at center and bordered silvery rose. Very beautiful.
4. **FRAU KARL DRUSCHKI**, also known as Snow Queen and White American Beauty. Purest white rose grown, with splendid long buds.
5. **GRUSS AN TEPLITZ.** Produces a mass of gorgeous dazzling fiery bloom on long stems. One of the finest dark roses.

Giving a Continuation of Bloom from
Spring until Frost.

ALTHEA, OR ROSE OF SHARON

[HIBISCUS]

One of the most showy and beautiful flowering shrubs. Flowers are large and of very brilliant and striking colors. Bloom freely during August and September, when scarcely any other shrubs are in bloom. Prevailing colors are rose, white, variegated and purple. Both single and double.

HYDRANGEA—Paniculata Grandiflora

A fine shrub growing from 8 to 10 feet high; flowers produced in great pyramidal panicles a foot long, changing from a pale green to white and again to pink. In bloom during August and September when very few shrubs are in flower. Perfectly hardy.

SPIREA ANTHONY WATERER

A new and beautiful crimson flowered dwarf variety, making a low compact bush 15 to 18 inches high and covered the whole season with large umbels of deep crimson flowers. Fine for bedding purposes or as a pot plant for the house.

WEIGELA

[DIERVILLA]

An elegant class of shrubs, with fine trumpet-shaped flowers; erect, compact growth; blossoms in June. For borders and in groups they are very effective.

SPIREA VAN HOUTTEI

Without doubt the grandest of all the Spireas; beautiful at any season, but when in bloom is a complete fountain of white flowers, the foliage hardly showing. Perfectly hardy and an early bloomer.

HYDRANGEA PANICULATA GRANDIFLORA
See description Page 8.

BARBERRY THUNBERGII

Most Popular Plant for Dwarf Hedge or Handsome as Single Specimens

Our nursery stock has the reputation of being the **BEST** that can be grown, and it is our aim to keep it up to the standard in every way. The best is always the cheapest. It is not what you pay, but what you get that makes the bargain. Every purchase will prove to you the value of buying stock from us.

Directions for Planting

TO OUR CUSTOMERS—

Most of the failures experienced in the planting of trees, shrubs, etc., result from want of knowledge of the conditions necessary to success, or from a careless disregard for them. Many a nurseryman is blamed for what might have been avoided had the planter consulted the plain wants and requirements of the stock, and given it at least a fair chance to grow and do well. We are interested in the success of every article we send out. We take the greatest pains to place every item in the hands of our customers in the best possible condition, and in order to furnish some precautions which our experience suggests and to urge a more cautious and considerable culture, we give a few hints on such points as are more essential.

Preparation of the Soil—For fruit trees the soil should be dry and in good condition, thoroughly plowed and so prepared as to be good for the production of a good crop of corn or wheat. If naturally moist, it should be thoroughly drained, and if exhausted by cropping, carefully dressed, as trees will not thrive on weak soils, or on such as are saturated with stagnant moisture.

Preparation of the Trees—Do not let them get dry. If not ready to plant when the stock arrives, see that it is immediately taken care of. The best way is to "heel it in," by packing the roots in a trench and covering them thoroughly with mellow earth well packed about them.

We use the greatest care in digging and packing, but the loss of some small roots and fibres is unavoidable, and to preserve the natural balance between roots and tops, a proper and judicious pruning is in most cases absolutely necessary. All broken or bruised roots should be cut off with a sharp knife, as a smooth cut heals much sooner than a bruise. The tops of fruit trees should be cut back to the extent of one-half the growth of the previous season, taking care to prune in such a manner as to secure a head properly shaped, and sufficiently open to the sun and air. Evergreens and other Ornamental Trees, the beauty of which depends on preserving their natural form, should be pruned but little. Thence great pains should be taken in planting and caring for them.

Planting—Before planting cut trees and shrubs back vigorously and trim off injured roots. Mud the roots well in thick mud and plant before it has time to dry. Never expose roots or tops to sun or wind before planting. Holes for trees should be large and deep unless the soil is wet and heavy, when they should be set the usual depth.

How to set a Tree or Shrub—Mind this rule and you will succeed. Sift some fine, rich dirt among the roots, just enough to cover so the boot will not injure them, then with the heel and all the strength and weight you can command stamp the earth down until it is solid, then fill a little more dirt and repeat the stamping until the hole is nearly full; then fill the rest of the hole with loose dirt and leave it with the soil pitching toward the tree in every direction. If properly set, you cannot pull it up. Do not try to pull all the earth back, but throw some away. The same general rule applies to everything from a strawberry to a shade tree.

First, do not expose them. Second, mud the roots; it is better than pouring on water. Third, set firmly, so that you cannot pull up the tree or plant without spoiling it. Fourth, leave the ground loose on top, and slanting toward the tree or plant.

Unrivalled location, superior stock, no section in Canada is better adapted to the production of healthy, hardy, well-rooted and ripened Nursery Stock.

Our specialty is direct dealing with customers; trees and vines are fresh dug and fumigated when shipped; true to name and O. K. Orders should always be placed early, before assortments are broken up. In ordering write name, number and size of each variety plainly, so as to avoid errors.

Terms—Cash with order. No risk in sending remittance by P. O. Order, Express Money Order or Registered Letter. Personal cheques add 15 cents for exchange. Small charge for boxes at cost. Purchaser pays freight.

Name, Post Office, County and Province should be distinctly written, sure

OUR GUARANTEE While we exercise the greatest care to have our stock genuine and reliable, we agree to replace on proper proof, all that may prove untrue to name as labelled, and it is hereby mutually agreed that our replacing, or offer to replace it, shall operate as a liquidation of all damages. A condition on which all our stock is sold.

Ontario Government Certificate of Inspection, No. 15, goes with every order.

TREES

In the Garden of Eden, planted by God
There were goodly trees in the springtime sod—
Trees of beauty and height and grace
To stand in splendor before His face.

Apple and hickory, ash and pear,
Oak and beech and the tulip rare.

The trembling aspen, the noble pine,
The sweeping elm by the river line;

Trees for the birds to build in and sing,
And the lilac tree for a joy in spring.

Trees to turn at the frosty call
And carpet the ground for their Lord's footfall;

Wood for the bow, the spear and the flail,
The keel and the mast and the daring sail;

He made them of every grain and girth
For the use of man in the Garden of Earth.

Then, lest the soul should not lift her eyes
From the gift to the Giver of Paradise
On the crown of a hill, for all to see,
God planted a scarlet maple tree.

—*Bliss Carman*
